For the pursuit local problem with the fixed time the scheme of the method of resolving functions and Pontryagin's first direct method are developed. Thu, 17 Jan 2019 01:43:00 GMT Discrete and Continuous Dynamical Systems - Series B - Abstract: In this paper, we summarize some of the recent developments in the area of fractional equations with focus on the ideas and direct methods on fractional non-local operators. Tue, 15 Jan 2019 06:03:00 GMT Discrete and Continuous Dynamical Systems - Series A - The Journal of Mathematical Analysis and Applications presents papers that treat mathematical analysis and its numerous applications. The journal emphasizes articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, and engineering, particularly those that stress analytical aspects and novel problems
